A speci of arrigance was probably inevitable. This an in-different outsider might readily excuse. But there is decency in all things, though the L compton men not appear to realize it. We are long-to-stated amount in the extreme of cruelty. Not many years ago, pending a beated political canvass, we had the good fortness to listen to a public discussion, in case of the interior connices of the State, between two gentlement whom we shall characterize simply as among the most distinguished and popular of our living public men.
